

## Supplementary material

Table 1. Non cardiac surgery procedures evaluated

Code	Description	Elected / urgent
79.15 and 79.35	Closed or open femur fracture reduction with internal fixation	79.15 and 79.35 programmed and also emergency admissions with main diagnosis of femur fracture (820.**).
57.49	Transurethral local bladder excision	
81.54	Total knee replacement	
81.51	Total hip replacement	
51.23 and 51.22	Laparoscopic/open cholecystectomy	51.23 and 51.22 programmed and also in emergency admissions with main diagnosis of cholelithiasis (574.**).
60.29	Transurethral prostatectomy	

Supplementary table 2. Number of procedures and percentage of heart failure (HF)

Procedure	Total	HF	% HF
Closed or open femur fracture reduction with internal fixation	258.398	13.825	5,4%
Transurethral local bladder excision	276.055	2.611	0,9%
Total knee replacement	348.530	2.397	0,7%
Total hip replacement	179.013	1.107	0,6%
Laparoscopic/open cholecystectomy	474.754	4.244	0,9%
Transurethral prostatectomy	109.959	831	0,8%
<b>Total</b>	<b>1.646.709</b>	<b>25.015</b>	<b>1,5%</b>
