Guide SmartGlass program

This guide will help you to make the most of your experience as a participant, suggesting possible scenarios of your daily practice in which you could use the SmartGlass.

Additionally, you will find space to note down your observations, as well as a short survey which will help us to gather as much information as possible.

SmartGlass number:

Surgery room

The SmartGlass could be eventually used in the following situations during a surgical intervention:

a. Take a picture or record a video to capture a key moment.
b. Take a picture or record a video and send it to a colleague by email to ask for advice.
c. Use the App Patients to load the patient's exams and check them during the surgical intervention.
d. What additional applications do you think it might have?

Could you perform the actions mentioned above? Yes/No

Do you think the SmartGlass may be useful in the surgery room?

1	2	3	4	5	6	7	8	9	10

Outpatient care

The SmartGlass can be eventually used in the following situations during an outpatient visit:

a. Take a picture or record a video of a peculiar lesion.
b. Use the App Diagnose to browse an algorithm during an outpatient visit.
c. What additional applications do you think SmartGlass can have?

Could you perform the actions mentioned above? Yes/No

Do you think the SmartGlass may be useful in outpatient care?

1	2	3	4	5	6	7	8	9	10

General features

How would you improve the App you used?

- App Patients (surgery room):
- App Diagnose (consult):

How would you improve the SmartGlass?

In which of the previously mentioned situations do you think SmartGlass can be more useful?

Please, describe you optimal App
