Suprapubic Catheter Exchange Model Assessment Questionnaire

Questionnaire to evaluate and validate the realism and usefulness of a suprapubic change model for Urological training (**1 – Very poor**, 2- Poor, 3 – Neutral, 4 – Good, **5 – Excellent**)

1. Your position ST*3-4 /ST5-7 /Consultant

2. How many suprapubic catheters have you replaced?

<0 <5 5 – 10 11 – 30 >50

3. How many suprapubic catheters have you inserted over a guidewire?

<0 <5 5 – 10 11 – 30

Overall appearance of the suprapubic tract site				
1	2	3	4	5
Representation of the relevant anatomy to teach the procedure				
1	2	3	4	5
The ease of insertion of a guidewire through the tract				
1	2	3	4	5
The feel of tract dilatation using ISC catheters/dilators				
1	2	3	4	5
The ability to insert a catheter over a guidewire				
1	2	3	4	5
The overall ability for the model to simulate the task				
1	2	3	4	5

4. The model would be useful for training junior doctors

Strongly disagree Disagree Neutral Agree Strongly agree

*Specialty Trainee, ISC – Intermittent Self Catheterisation
