

Supplementary data

**Table 1 of the supplementary data.** Risk scores in pulmonary arterial hypertension and variables included in the score

<b>REVEAL 2.0 score</b>
Revised REVEAL score with existing variables and revised risk points and new variables
Hospitalization within the last 6 mo
Estimated glomerular filtration rate < 60 mL/min 1.73m <sup>2</sup> or renal insufficiency
<b>Right heart score</b>
Right ventricular function, using fractional area change
Right atrial enlargement index
Systolic blood pressure

**Figure 1 of the supplementary data.** Reproducibility of RVESRI

RVESRI, right ventricular end-systolic remodeling index; RVEF, right ventricular ejection fraction.
